

7th Edition of the Alliance Française International Photography Contest

“Fashion & Dress Codes”

Theme :

Clothes are a proof of affiliation : dressing means to assert one’s own existence within society and to be recognized, but it is also a way to express one’s identity, a way to be noticed and to display one’s preferences...

Traditional dress, formal dress, semi-formal dress, sportswear, religious dress, etc. There are many ways to dress depending of contexts (generation, age, gender, geography, history...). Moreover, when the dress code becomes fashion, it expresses a social aspiration but also an aesthetic one.

The ambition of this 7th edition is to demonstrate, through the scope and the plurality of ways to dress, the abundance of heritages, practices et creations, and at a larger scale, world diversity.

Jury will focus on quality and originality of pictures.
